

Brenntag Mid-South, Inc.

Mission Statement

Our Vision

Brenntag Mid-South, Inc. is determined to maintain a leadership position in chemical distribution and specialty manufacturing. Only our dedicated effort and unfailing commitment as summarized in our stated goals can ensure our continued success.

- *To be the leading complete chemical service organization.*
- *To provide the best customer service in the industry.*
- *To generate a return on our resources that will ensure continued growth.*

Every action of every employee will be a reflection of these commitments.

Our Values

Service

The people of our company are our strength. Our ability to serve our customers and each other will determine our success.

Safety

We will always be aware of our responsibility for the highest standards of safety and the protection of the environment, our people, customers and the communities that we serve.

Quality

Our objective is continuous quality improvement to provide consistent, high quality products and services.

Our Priorities

Customer Focus

Our most important challenge is to understand the needs of the customer, to satisfy those needs, and to look for new and creative ways to improve our mutual competitive positions.

Innovation

We intend to increase our ability to serve our customers through expanded locations, enhanced manufacturing, blending, and packaging capabilities so that we can offer a complete range of basis, specialty and custom products.

Financial Strength

To maintain our leadership position, we must maximize the utilization of our resources, stay in step with technological advances, and continue our quest to be the most cost effective supplier of chemical products.
